Maximum dimensions and weight allowed on an annual oversize/overweight permit are: length -120', width - 13'5", height - 15'5", weight - 156,000 lbs. Enter actual dimensions if self-propelled oversize/overweight vehicle.

This permit is valid only for travel on state and U.S. highways in Iowa. It is not valid for travel on interstate highways, county roads, or city streets. Separate permits must be obtained from the proper governing authority for travel on these roadways.

Carrier will receive Bridge Embargo Maps, a Pavement Restrictions Map, and Vertical Clearance Maps and a log. Information is also available at [www.iowadot.gov/mvd](http://www.iowadot.gov/mvd) and [www.511ia.org](http://www.511ia.org). It is the responsibility of the carrier to route themselves around low clearances, construction projects, embargoed roads and bridges. If carrier demonstrates inability to self route, the permit will be revoked.

Permits can be issued only for transporting single articles that exceed statutory size limits unless the inclusion of additional articles does not cause the size or weight to further exceed the statutory limits.
